## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 14-27 contain allowable subject matter over the prior art of record.
2. The following is an examiner's statement of reasons for allowance:

The claimed invention is directed to an information recording apparatus. The independent claims identify the feature of "an adjusting device for obtaining adjustment amount of the reference set value on the basis of the correlation information if the reproduction quality measured by said measuring device is different from the target reproduction quality, and for adjusting the reference set value such that a set value which is adjusted based on the adjustment amount is to be a new reference set value".

The closest prior art, Matsumoto discloses a conventional optical disc apparatus with laser power control matching linear recording velocity, either singularly or in combination fails to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. .

Matsumoto discloses a conventional optical disc apparatus with laser power control matching linear recording velocity.

Yamamoto discloses an optical recording apparatus that enables correction of recording power.

Suzuki discloses a recording apparatus which enables optimum recording condition with respect to a linear velocity.
